

Interior Designer/Architectural Drafter/
Revit BIM modeling

MARIA FERNANDA
Ospina Restrepo

About

Interior Designer with over four years of experience delivering residential and hospitality projects from concept development through construction documentation.

Experienced in preparing construction documents, BIM modeling, technical drawings, millwork detailing, and 3D visualizations using Autodesk Revit. Currently collaborating on high-end residential projects for the U.S. market, working with multidisciplinary teams to produce coordinated, accurate, and buildable documentation.

Passionate about creating functional, aesthetically refined spaces while combining strong technical skills with attention to detail.

Professional Experience

Christopher Homes

Architectural Drafter | BIM Coordination

Prepare construction documentation for luxury residential projects in the US using Autodesk Revit. Develop floor plans, reflected ceiling plans, elevations, sections, details, schedules, and millwork drawings.

Coordinate Design Options throughout project development.

Review and implement Redline markups.

Prepare permit documentation and construction drawing packages.

Coordinate doors, windows, finish schedules, and architectural details.

Collaborate daily with U.S.-based architects and multidisciplinary teams using technical English.

Solisur

Developed residential and hospitality interior design projects from concept through construction documentation.

Produced detailed architectural drawings and technical documentation for project execution.

Created BIM models using Autodesk Revit.

Coordinated interior layouts, finishes, materials, and custom millwork solutions.

Produced high-quality architectural renderings for client presentations.

Worked closely with architects, consultants, and clients throughout project development.

Dimétrica

Designed residential and hospitality interiors.

Produced architectural renderings and presentation materials.

Developed furniture drawings and technical documentation.

Prepared finish and FF&E specifications.

Coordinated project development with contractors and clients.

Modeled projects using Revit and SketchUp.
